

Each of the boxes in the top block contains a mathematical problem. Match a problem in the top block with an answer in the bottom block.

Then transfer the word of the matching expression into the bottom box. When all the boxes have been worked out you will discover a startling fact.

$3.21 + 2.06$ THAT	$3.2 + 1.43$ CAN	$4.32 + 1.21$ TADPOLES	$4.35 + 2.11$ THEM	$3.12 + 1.11$ WATER
