

This **colour by numbers** will help you to practise these skills:

- Finding a percentage of a number
- Calculating percentage increase and decrease
- Finding one number as a percentage of another

36 Blue	
40 Any dark colour	
25 Grey	
48 Green	
45 Red	
50 Yellow	

**Note:**  $24 + 50\%$  means “increase 24 by 50%”;  $60 - 40\%$  means “decrease 60 by 40%”, and so on.

**Extension:** For each of the five answers above, make up your own percentages questions similar to the ones in the picture.
